## PREFACE

This report presents information on the forty-eight New Brunswick provincial parks operated during the calendar year 1989. All statistics, except for alpine skiing, are collected primarily from late May until early October. Off-season day use statistics are not included in this report.

This data is based on camp area permit and vehicle entry permit sales, ski tickets, golf greens fees, traffic counter readings and actual on site monitoring. A factor of 2.6 is used to ascertain the number of persons per vehicle.

Provincial park opening dates vary from late May until late June while closing ranges from Labour Day until early October (see pages 41-43).

Of the forty-eight provincial parks operated in 1989, twenty-eight have campgrounds while the remaining twenty are day use facilities with beaches and picnic areas, scenic viewing areas or natural attractions. There are six parks where either the campground or the whole park is contracted out to private operators. The Department also operates 2 golf courses, 2 alpine ski hills and one alpine slide.

Any questions about this report should be directed to Kirby Burt or Phillip Ossinger at (506) 453-2730.

## GLOSSARY OF TERMS

Average Occupancy Rate equals total number of permits in effect multiplied by 100% divided by unit capacity multiplied by number of nights permits available.

Campers - the number of permits sold multiplied by the length of stay multiplied by the average number per camping group. (no. of camper nights).

Camping Group Nights equals cumulative total of permits issued per night for all units. (total no. of campsites in use per night).
